Protect your home and family this winter

Lennox Residential Generators

By Installing a Spence HVAC & Lennox® Residential Generator, power will be restored in seconds when utility lines collapse under heavy ice or snow. Find out more! (

Remember we offer several financing options (<http://spencehvac.com/hvac-financing-options.html>) for any of our equipment, and/or service needs.

We have added a few new features to our website. We now have an area that will allow you to post comments on your experience with Spence HVAC, and our featured Lennox products. Please take the time to share with us and others how we helped you meet your home comfort needs. Let us know how we did! (<http://spencehvac.com/testimonials.html>)

In addition to our Testimonials we have added a list of local business (<http://spencehvac.com/our-partners.html>) we have partnered with, and have first hand experience with their services, and products. These businesses put YOU the customer first, and we wish to support them as they have supported us.

Remember you can use our website to place a work order (<http://spencehvac.com/service-request.html>), and get a full listing of the services we provide. We are still offering \$10.00 off any service call if you place your work order via our website.

Reducing our Footprint

Spence Heating and Air Conditioning prides itself in taking care of the earth by recycling everything possible in an effort to reduce our carbon footprint.
